

DATA REPORTING TOOL

STROKE

INSTRUCTIONS:

- 1) Collect all Data Collection Tools (one per patient case) completed during the month.
- 2) Aggregate the total number Category E and Category D responses for each stroke measure as recorded on the Data Collection Tools and complete the corresponding columns below (Columns 2 & 3).
- 3) Add the total number of Category E (Column 2) responses and the total number of Category D (Column 3) responses and record in Column 4.
- 4) Divide the total number of Category E (Column 2) responses by the Sum of E + D (Column 4) and record the rate (%=percent) produced in Column 5.
